

JGH PROJECT INTELLIGENCE ENGINE

PHASE 0 DATABASE PROFILE & BUSINESS DICTIONARY REVIEW SHEET

Section 1: Executive Summary & Database Scope

This review sheet summarizes Phase 0 automated database profiling across **jghMasterDB**. Domain experts are requested to inspect low-cardinality enums, verify security blacklists, and provide formal sign-off for proposed business dictionary definitions.

Database Target:	jghMasterDB (MySQL 8.0)	Total Tables Analyzed:	238
Profiled Low-Cardinality Enums:	491 Columns	Detected Sensitive Columns:	16 Blacklisted
Candidate Join Edges:	32,251 Graph Edges	Generated Timestamp:	2026-08-12 11:00:07
Review Status:	PENDING DOMAIN EXPERT SIGN-OFF	Target Schema Scope:	Core 8 Scope Tables + Master DB

Section 2: Low-Cardinality Enum & User Role Profiling Table

Below are the raw distinct values and row counts extracted from target low-cardinality columns. Domain experts must confirm proposed business meanings and sign off on each item.

Table & Column Name	Raw Database Values & Counts	Proposed Business Meaning / Expert Sign-Off Line
users.user_role	1 (6), 2 (27,703), 3 (6), 4 (457), 5 (573), 6 (248), 7 (1), 8 (6), 10 (23), 11 (10), 13 (3), 14 (1)	Role 2 = _____ Role 4 = _____ Role 5 = _____ [] Approved
wallet_transaction.reference_type	cash_point (6.36M), withdrawal (35.9K), topup (117.5K), incentive (5.0K), bonus_conversion (3.4K), referral_earning (2.6K), credit_note (511)	Earnings: cash_point, topup, incentive, bonus_conversion, referral, credit_note Redemptions: withdrawal [] Approved
wallet_transaction.status	1 (100,000 / Active Completed Transactions)	Status 1 = Completed / Active Transaction [] Approved
sku_inventories.order_type	Distributor (52,106), Distributors (47,894)	Wholesaler / Distributor Orders = 'Distributor', 'Distributors' Retailer Orders = 'Retailer' [] Approved
sku_inventories.sources	kolkata (100,000)	Source Location = 'kolkata' (Primary Inventory Warehouse) [] Approved
sku_qr_points_maps.gride_type	FG_BIG (6,724), FG_SMALL (1,250), NULL (90)	FG_BIG = Finished Goods Big Box FG_SMALL = Finished Goods Small Box [] Approved
sku_qr_points_maps.uom	B10 (3,594), B5 (3,067), B6 (64), B12 (22), B3 (1,142), B1 (153), " (22)	B10 = 10 Pcs Box, B5 = 5 Pcs Box, B3 = 3 Pcs Box, B1 = 1 Pc Box [] Approved

Section 3: Restricted & Sensitive Column Security Blacklist

The following 16 sensitive database columns were flagged by security keyword scanning. These columns are strictly blacklisted from LLM prompts and query execution outputs.

Table Name	Column Name	Data Type	Keyword Matched	Security Policy & Approval
campaign_logs	device_token	varchar	token	[] Exclude from Prompts (Approved)
company_controls	key	varchar	key	[] Exclude from Prompts (Approved)

connection_request	auth_code	varchar	auth	[] Exclude from Prompts (Approved)
employees	password	varchar	password	[] Exclude from Prompts (Approved)
notification_logs	device_token	varchar	token	[] Exclude from Prompts (Approved)
notifications	device_token	varchar	token	[] Exclude from Prompts (Approved)
password_resets	token	varchar	token	[] Exclude from Prompts (Approved)
personal_access_tokens	tokenable_type	varchar	token	[] Exclude from Prompts (Approved)
personal_access_tokens	tokenable_id	bigint	token	[] Exclude from Prompts (Approved)
personal_access_tokens	token	varchar	token	[] Exclude from Prompts (Approved)
tripur_api_tokens	access_token	text	token	[] Exclude from Prompts (Approved)
tripur_api_tokens	token_type	varchar	token	[] Exclude from Prompts (Approved)
users	password	varchar	password	[] Exclude from Prompts (Approved)
users	two_factor_secret	text	secret	[] Exclude from Prompts (Approved)
users	remember_token	varchar	token	[] Exclude from Prompts (Approved)
users	fcm_token	varchar	token	[] Exclude from Prompts (Approved)

Section 4: Business Dictionary Labeling Sheet

Please confirm or fill in the domain definitions and SQL filtering expressions below for core business metrics and categorizations. This will serve as the ground truth for AI SQL Agent query synthesis.

A. User Role Definitions Sign-Off Sheet

Role Code	Current System Role / Category	Domain Expert Confirmation Line
user_role = 2	Retailer / Mechanic / End User	Label: _____ [☐ Confirm
user_role = 4	Distributor / Field Executive	Label: _____ [☐ Confirm
user_role = 5	Wholesaler / Admin Role	Label: _____ [☐ Confirm

B. Wallet Reference Type Categorization Sheet

Reference Type	Proposed Category	Expert Verification Line
cash_point	Earnings (QR Box Scan)	[☐] Correct [☐] Modify: _____
withdrawal	Redemptions (Cash Payout)	[☐] Correct [☐] Modify: _____
topup	Earnings (Wallet Topup)	[☐] Correct [☐] Modify: _____
incentive	Earnings (Performance Incentive)	[☐] Correct [☐] Modify: _____
bonus_conversion	Earnings (Bonus Points to Cash)	[☐] Correct [☐] Modify: _____
referral_earning	Earnings (Referral Reward)	[☐] Correct [☐] Modify: _____
credit_note	Earnings (System Credit)	[☐] Correct [☐] Modify: _____

C. Core Business Metrics SQL Expressions

Metric Name	Target Table & Column	Proposed SQL Expression	Domain Expert Verification
Balance	users.wallet_balance	SUM(wallet_balance)	Definition: Net balance in rupees Notes: _____
Retailer Box Scans	sku_inventories.order_type	COUNT(CASE WHEN order_type IN ('Retailer') THEN 1 END)	Definition: Retailer QR box scans Notes: _____
Wholesaler Box Scans	sku_inventories.order_type	COUNT(CASE WHEN order_type IN ('Distributor', 'Distributors', 'Wholesaler') THEN 1 END)	Definition: Wholesaler/Distributor scans Notes: _____
